

Ready to dive into the world of the Eastern Chipmunk, an adorable little critter with stripes? These cute animals are small and speedy, known for their reddish-brown fur and five dark stripes that run down their backs. They've got big, round eyes that sparkle with curiosity and little hands perfect for gathering food. They're pretty small, usually only about 5 to 6 inches long, but don't let their size fool you, they're full of surprises!

Speaking of surprises, did you know that these tiny creatures are actually quite the foodies? Eastern Chipmunks are omnivores, which means they eat both plants and meat. They love to munch on nuts, seeds, fruits, bugs, and sometimes even small frogs and birds! They use their cheek pouches to carry food back to their burrows, which can stretch up to 30 feet long!

From their extensive burrows, Eastern Chipmunks interact with both humans and other animals in interesting ways. Humans often find them in their gardens, as they love to dig and can sometimes cause a bit of trouble with plants. However, they usually keep to themselves and run away when scared, using their speed and agility to escape. With other animals, they can be a bit feisty, defending their territory from rivals and warning off predators with loud chirps.

Chirping isn't their only unique feature, Eastern Chipmunks are different from other chipmunk species in a few ways. They're usually a bit larger than their relatives and have fewer stripes on their heads. Unlike some chipmunks, Eastern Chipmunks have two breeding seasons a year, once in spring and once in summer. So, whether you spot them darting around the forest or hear their distinctive calls, you'll know you've met a truly fascinating creature, the Eastern Chipmunk!

**Solve each problem.**

**Use the article to answer the question.**

- 1) How do Eastern Chipmunks carry food back to their burrows?  
A. Using their cheek pouches      B. Using their tails  
C. Using their paws      D. Using their fur
- 2) How long can Eastern Chipmunk burrows be?  
A. Up to 20 feet long      B. Up to 10 feet long  
C. Up to 5 feet long      D. Up to 30 feet long
- 3) How do Eastern Chipmunks usually react when they are scared by humans?  
A. They run away      B. They attack      C. They play dead      D. They hide
- 4) What is the Eastern Chipmunk's home underground called?  
A. Dens      B. Shelters      C. Burrows      D. Hives
- 5) What animals do Eastern Chipmunks sometimes eat?  
A. Small frogs and birds      B. Lions and elephants  
C. Dogs and cats      D. Fish and whales
- 6) How long can the homes of Eastern Chipmunks be?  
A. Up to 20 feet long      B. Up to 10 feet long  
C. Up to 30 feet long      D. Up to 40 feet long
- 7) How long is an Eastern Chipmunk usually?  
A. 2 to 3 inches      B. 5 to 6 inches  
C. 15 to 20 inches      D. 10 to 12 inches
- 8) What kind of diet does an Eastern Chipmunk have?  
A. Carnivore      B. Omnivore      C. Insectivore      D. Herbivore
- 9) What are Eastern Chipmunks known for doing to humans' gardens?  
A. Building nests with crops      B. Digging them up  
C. Eating flowers      D. Climbing on the plants
- 10) What color is the fur of the Eastern Chipmunk?  
A. Pure white      B. Black and gray  
C. Reddish-brown      D. Orange and tan

**Determine if the statements is something the animal would say (W) or it is not something the animal would say (N).**

- 11) "When we eat, we stuff our cheeks full of food and save it for later when we are back in our burrows!"
- 12) "Did you know that I dig extensive burrows up to 30 feet long?"
- 13) "We usually have two sets of babies a year, in the spring and the summer!"
- 14) "I have the most stripes of all chipmunks!"
- 15) "We are actually larger than many other chipmunks and have fewer stripes on our heads."
- 16) "My burrows are usually small, just a tiny hole in the ground."
- 17) "I'm pretty fast and agile, which helps me escape from scary things!"
- 18) "I only eat leaves, just like a caterpillar."

- 19) "I only eat purple berries, they have to be purple."  
20) "I only have babies in the winter."

**Determine if the statement is a fact or opinion based on the information in the article.**

- 21) Eastern Chipmunks can give loud chirps to warn predators and rivals.  
22) It is impressive how Eastern Chipmunks can run so fast despite their small size.  
23) Eastern Chipmunks can cause some problems by digging in gardens.  
24) The way Eastern Chipmunks use their cheek pouches to carry food is remarkable.  
25) Eastern Chipmunks have dark stripes on their backs.  
26) The sound of Eastern Chipmunks' warnings is oddly cute.  
27) Eastern Chipmunks have two breeding seasons per year.  
28) Eastern Chipmunks can build burrows thirty feet long.  
29) Eastern Chipmunks look adorable when they stuff their cheeks full of food.  
30) Eastern Chipmunks are the cutest of all chipmunk species.

**Determine if the statement is true or false.**

- 31) Eastern Chipmunks use their cheek pouches to carry food back to their burrows.  
32) Eastern Chipmunks are the smallest chipmunk species.  
33) Eastern Chipmunks are larger than other chipmunk species.  
34) Eastern Chipmunks are carnivores.  
35) Eastern Chipmunks have two breeding seasons a year.  
36) Eastern Chipmunks have one breeding season a year.  
37) Eastern Chipmunks have 6 dark stripes running down their backs.  
38) Eastern Chipmunks burrows can be up to 50 feet deep.  
39) Eastern Chipmunks will defend their territory from rivals.  
40) Eastern Chipmunks will eat both plants and meat.

**Determine if the sentence is a declarative(d), exclamatory(e), interrogative(i) or imperative(m).**

- 41) Eastern Chipmunks eat a variety of foods including nuts, seeds, berries, and insects.  
42) What unique features do Eastern Chipmunks have?  
43) Eastern Chipmunks have cheek pouches that they use to carry food.  
44) Eastern Chipmunks have reddish-brown fur with four dark stripes on their back.  
45) How do Eastern Chipmunks store food for the winter?  
46) Where do Eastern Chipmunks live?
